Notification of Proposed nbn™ Radio Network Base Station Facility

The National Broadband Network (nbn) is a high speed broadband network designed to reach 100 per cent of Australian premises and provide the communications infrastructure to help us stop falling behind in an increasingly online world.

nbn is committed to delivering leading edge broadband services to all Australians by leveraging the three types of technology available - fixed line, fixed wireless and satellite, depending on location.

As part of the fixed radio (wireless) component of the Network, nbn is proposing to expand the existing radio network base station at the following location;

- Nuriootpa West: Keller Road, Nuriootpa SA 5355 (RFNSA 5355003)

The works are to provide high quality wireless broadband services to customers in the surrounding locality.

The proposed works on site will involve the upgrade of existing technology upon the facility including and not limited to the replacement and installation of new antennas, radiocommunication dishes and associated ancillary equipment to enhance transmitting technology. Furthermore the works will involve the replacement and addition of equipment shelters/outdoor units adjacent to the facility.

nbn regards the proposed installations as a Low Impact Facility under the Telecommunications (Low-Impact Facilities) Determination 2018. In these circumstances, it does not require planning approval from Council. This notification is undertaken in accordance with the requirements of Section 7 of the Mobile Phone Base Station Deployment Code 2018.

Further information on this specific proposal can be obtained by calling Andrew McLane on 0401 614 362.

Written submissions can be sent to:
 Level 1, 110 Pacific Highway, St Leonards NSW 2065 or via email to andrew.mclane@axlcom.com.au

The closing date for submissions is 5pm Thursday 23rd May 2019.

For general info on the nbn, email info@nbn.com.au, or visit our website at www.nbnco.com.au.

Open Up Our World of Wines

Electrical Tradesperson

Introducing a fantastic opportunity to develop your career and join a leading local manufacturing operation.

About the Role

We are seeking a qualified Electrical Tradesperson who wishes to further their career by joining a leading manufacturing operation. The role is a full-time permanent position, supporting our Packaging Operations at our Rowland Flat Winery based in the iconic Barossa Valley, just North of Adelaide. You will be primarily responsible for deploying your trade, working with a variety of plant and technology in which you will grow your skill set in a primary local industry.

Key responsibilities of this role include:

- Electrical maintenance for Packaging plant & equipment;
- Attend to breakdowns;
- Contribute to project work;
- Participate in the commissioning of new equipment;
- Assist with the review of Maintenance procedures; and
- Provide operational support to the Packaging team.

About You

You hold a South Australian electrical worker's licence and enjoy working in a team environment that is focussed upon producing quality goods (preferably having worked within an FMCG environment or related). You have great troubleshooting skills and technical understanding (including a sound knowledge of Australian Standard 3000:2000). You have knowledge or interest in PLC's, HMI's and variable speed drives. Your approach to safety is strenuous and you are proactive in work, with the ability to communicate to everyone around you which will see you thrive within Pernod Ricard Winemakers.

A competitive salary package is on offer, including a generous product allowance and other employee benefits such as Income Protection Insurance. And as a leading employer, we offer great working conditions and are constantly innovating, creating and growing. If you think you have what it takes and you're ready to make your mark with us, apply via our company website <http://www.pernod-ricard-winemakers.com/>
