## Correcting our perception

Linda Burnett went to a nearby supermarket to pick up some groceries.

Several people noticed her sitting in her car with the windows rolled up.

Her eyes were closed and both hands were behind her head.

One customer became concerned and walked over to the car.

She looked very strange. He asked if she was okay, and Linda replied that she'd been shot in the back of the head, and she was holding her brains in.

An ambulance was called and they broke into the locked car. Linda refused to move her hands.

They examined her and found a wad of bread dough on the back of her head.

A canister of biscuit dough had exploded from the heat.

It sounded like a gun shot, and the wad of dough hit her in the back of her head.

When she felt the dough, she thought it was her brains.

She initially passed out, but quickly recovered and tried to hold her brains in for over an hour until someone came to her aid.

Perception is a strange thing.

We can't do without it, but there are times when it can deceive us.

Linda Burnett lived in a culture in which gun shots are more common than exploding biscuit canisters.

Our perception in life is affected by our environment.

Our understanding of life should always be open to review.

We live in a culture where anyone who believes the Bible is held up to suspicion and ridicule.

If we believe the Bible is the Word of God, we ought to be ready to quote it as much as we can.

The Apostle Paul said, "We are ambassadors of Christ."

Our society needs to know that God has His ambassadors everywhere.

Jesus commanded us to be open with our faith.

"Whoever is ashamed of Me and My words in this adulterous and sinful generation, of him the Son of Man also will be ashamed when He comes in the glory of His Father with the holy angels."

We need to improve our perception of things.

Jesus said, "I will never leave you or forsake you."

If we trust Him to keep His word, we will also open our mouths for Him.

May God be with every one of us who believes these things.
